Toronto, Ontario—VersaCold Logistics Services has purchased a new facility in Montreal, Quebec. The new facility, located at 5757 St-Francois Street, will be fully operational as of September 1st, 2016.

The new facility will provide up to 10,000 additional pallet positions in the Quebec market. The new facility is VersaCold's fourth in the province and 30th in Canada.

"We are very excited to launch this new facility and to more comprehensively support the growth of the Quebec marketplace," said Douglas Harrison, president and CEO of VersaCold.

"The new location will enable us to fulfill the growing needs of our current customers and will provide great opportunities for future business growth – not only in Quebec, but across North America."
