MULTI-INDUSTRY SOLUTIONS

In a true “partner for prosperity” model, VersaCold North America Transportation Solutions (VNATS), as one service in your integrated supply chain solution, allows VersaCold and our customers to extend their reach and market penetration. From north to south or east to west, VNATS can take you where you want to be.

Breaking down cross-border barriers

EXPANDED GLOBAL REACH

You want your business to expand and flourish, so you don't want to be hindered by unnecessary barriers – especially when those barriers are just lines on a map. Enter VersaCold's newest service: North America Transportation (VNATS).

VNATS, comprises two wholly owned subsidiaries; Gary Heer Transport Ltd. and Coastal Pacific Xpress (CPX). VNATS signals VersaCold's expansion into the cross-border segment. The acquisition of such experience and expertise ensures we provide exceptional cross-border transportation services to customers across North America. VNATS represents another outstanding service we can utilize to put together a customized, strategic and integrated solution for your temperature-sensitive logistics needs.

A DOMINANT REGIONAL FOOTPRINT

Coastal Pacific Xpress

CPX is British Columbia's largest Just In Time, refrigerated carrier specializing in the shipping of perishable and ambient products throughout Canada and the USA. While growing their presence in Eastern North America, they are a dominant presence in the West and especially along the I to 5 corridor between British Columbia, Washington, Oregon, Arizona and California – with strategically located warehousing and cross-docking facilities along the way.

CPX has an ocean of experience in temperature-controlled trucking. They provide industry leading JIT delivery of highly-perishable products such as fresh produce, fish and meat products for blue chip customers across Canada and the United States.

EXPERIENCE AND INTEGRITY

Gary Heer Transport Ltd. (GHT)

A leader in refrigerated truckload cross-border transportation services between Western Canada and the United States, Gary Heer Transport is an asset-based carrier with a relentless focus on customer service and a reputation for going above and beyond for their clients. For 27 years, they have transported customer products with integrity – safely and on time. They have opened up new possibilities for our customers through routes with increased penetration into the Eastern, Western and Southern United States including from California, Washington, Arizona, Texas, Florida, Michigan and Minnesota to locations including Toronto, Calgary, Edmonton and British Columbia's Lower Mainland.

Gary Heer Transport is the trusted carrier for clients in the west. VersaCold customers can rely on GHT's total commitment to their individual needs as well as experience-backed knowledge on anything from shipping best practices and integrated solutions to advice on trailer security

A SHARED OUTLOOK FOR SUCCESS

Gary Heer Transport Ltd. and Coastal Pacific Xpress were acquired to become VNATS not only because of their proven track records and unparalleled experience, but because they share the values that are at the core of everything we do. As with every other service we provide, you can expect VNATS to maintain safety as our number one focus. Both CPX and GHT maintain modern fleets fitted with the latest in transportation technology that is constantly updated and upgraded. You can expect our "easy to do business with" partnership approach that starts with our customers. And you can expect the highest standards of customer service in the industry.

VNATS gives us enhanced capabilities in the cross-border segment, an expanded North American footprint and an increased ability to safely and efficiently transport your perishable and ambient products across Canada and into the United States.

Integrated Capabilities

If you are looking for more than VNATS services, we can combine that service with any or all of our other service offerings – Warehousing, Transportation, 3rd Party Logistics, Transportation Management & 4PL, and Distributor Services – into one customized, integrated offering designed to draw real value out of your supply chain. VersaCold is the one-stop, end-to-end, coast-to-coast supply chain solution that no other Canadian supplier can match.
